

Insert the rails into the end clamp openings.

Tighten the knobs and repeat for the opposite side.

Place each dolly truck stud through the pass through holes located on the corners of the platform

Thread the knobs onto each stud.

The end clamp feet can be adjusted up or down for leveling.

Set the assembled cart onto the rails with the truck wheels all parallel to the rails.

Line your selected mounting insert with the appropriate whole on the platform.

Use the included mounting hardware to secure the mounting insert to the platform/
